

Ten Fun Facts About EVs

- 1.** Depending on eligibility, you could save thousands when you buy or lease a new or used EV with available incentives.
- 2.** EVs have instant torque, providing quick, smooth acceleration.
- 3.** In California, EV batteries come with a 10-year / 150,000-mile warranty.
- 4.** Fast chargers can charge a vehicle's battery up to 80% in as little as 30 minutes.
- 5.** Marin County is home to over 1,000 EV chargers.
- 6.** Some EV models have up to 400+ miles of range.
- 7.** There are over 100 EV models available with types for almost any lifestyle. These include trucks, motorcycles, SUVs, and even e-bikes.
- 8.** No matter how you charge your vehicle, EVs are more efficient than traditional gas cars.
- 9.** Battery electric vehicle (BEV) drivetrains have, on average, just 20 parts compared to the over 2,000 found in gas car motors.
- 10.** If your home has solar panels you can charge using 100% clean energy.
